## Titles of articles

Absorption mechanisms for waterborne sound in Alberich anechoic layers, R. Lane ....28
A computer model for ultrasonic propagation in complex orthotropic structures, M.G. Silk .....208
A microcomputer aid to operator-based weld inspection, A. McNabb, S.J.C. Rushbrook Williams .....63
Amplitude modulation of diffracted light waves caused by adjacent ultrasonic beams of frequency ratio 1 : *n*, O. Leroy, E. Blomme .....173
Analogue implementation of analytic signal processing for pulse-echo systems, P.M. Gammell .....279
Analysis of the error in measurement of ultrasound speed in tissue due to waveform deformation by frequency-dependent attenuation, M. Ragozzino .135
A new experimental method for measuring life time and crack growth of materials under multistage and random loadings, S. Stanzl .....269
An ultrasonic velocity borehole logger for use in rock, G. West, B.M. New .....67
A simple method of realizing the deconvolution of ultrasonic images, W. Kohl, R. Schwarz .....273
A simulation model for ultrasonic pulse-echo systems, M. Ueda, H. Murata .....230
Broadband measurements on ultrasonic tank lining materials, R.C. Chivers, A.D. Smith, P.R. Filmore .....125
Calculations of the reflection and transmission of ultrasound by cracks in steel filled with solid sodium, J.A.G. Temple .....57
Computations and measurements of transient stress waves and electrical voltages generated by transmitting ultrasonic piezoelectric transducers, C.F. Ying, M.X. Li, H.L. Zhang .....155
Design considerations of the acousto-optic light deflector, B.P. Kaczmarski, A. Leszczynski .....265
Detection of local inhomogeneities in solids by Rayleigh angle reflection, W.G. Mayer 109
Diffraction testing of ultrasonically-produced phase gratings using a double beam illumination method, K. Patorski .....120
Effects on mass transfer of atomization and dispersion of liquids in the presence of ultrasound, S.K. Dutta, A.P. Sinha .....164
Effects on the damping of ultrasonic transducers due to a lack of parallelism in the piezoelectric element, Y. Jayet, M. Perdrix, R. Goutte .....179
Examination of vibration amplitude distribution of ultrasonic transducers using optical holography with a modulated reference beam I. Wojciechowska, A. Sliwinski ..115
Hybrid linear and matrix acoustic arrays, M. Pappalardo .....81
Improved ultrasonic detection using the analytic signal magnitude, P.M. Gammell ....73
Interaction of re-radiated Rayleigh waves with fatigue cracks, D.E. Chimenti, L. Adler .112
Laser-generated ultrasound at modified metal surfaces, D.A. Hutchins, R.J. Dewhurst, S.B. Palmer .....103
Localization of acoustic emission sources in tensile and ct specimens using a broadband acquisition technique, P. Fleischmann, D. Rouby, G. Malaprade, I. Lanchon .....259
Measurement of ultrasound reflected from ultra-thin defects, A.V. Clark, H.H. Chaskelis .....201
Miniature piezoelectric polymer ultrasonic hydrophone probes, P.A. Lewin .....213
Mode conversion of Rayleigh and Lamb Waves to compression waves at a metal-liquid interface, M.O. Deighton, A.B. Gillespie, R.B. Pike, R.D. Watkins .....249
Optical testing of ultrasonic phase gratings using a Fresnel diffraction method, K. Patorski .....169
On the mechanism of the photographic effect of ultrasound, C.G. Stephanis, G.D. Hampsas, S.A. Pittlinger .....184
Piezoelectricity and ferroelectricity in polyvinylidene fluoride, E. Fukada, T. Furukawa .....31
Speckle in ultrasound imaging, P.N.T. Wells, M. Halliwell .....225
The effectiveness of thin layers as ultrasonic visualization media, J.A. Archer-Hall, D.A. Hutchins .....77
Thermographic investigation of high-power ultrasonic heating in materials, R.B. Mignogna, R.E. Green Jr, J.C. Duke Jr, E.G. Henneke II, K.L. Reifsnider .....159
Ultrasonic attenuation in plasma-sprayed coating materials, R.L. Cox, D.P. Almond, H. Reiter .....17

Ultrasonic detection of resonant cavitation bubbles in a flow tube by their second-harmonic emissions, D.L. Miller .....217
Ultrasonic moulding of plastic powders, D.W. Paul, R.J. Crawford .....23
Ultrasound propagation in 'in vivo' bone, J. Behari, S. Singh .....87
Variables in the use and design of acoustic emission transducers, R. Hill, S.M.A. El-Dardiry .....9

## International news

Acoustic emission contract .....8
Tube inspection system .....7

## Industrial news

CEGB awards probe approval .....153
Cleaning product line acquired .....153
Company receives CEGB approval .....153
Contract for adaptive learning networks in ndt .....153
Marking company supplies ultrasonic welders and jigs .....56
Medical ultrasound business acquired .....55
Ndt company acquired .....55

## New equipment

Acoustic emission and vibration bearing analyser .....149
Auto-ranging kit .....4
Bench top ultrasonic cleaning baths .....54
Broadband amplifier .....243
Broadband power amplifier .....99
Broadband rf power amplifier .....53
Compact level gauges .....245
Cutting and sealing flexible thermoplastics 197
Detecting leaks with ultrasound .....99
Digital velocity caliper .....195
Doppler flowmeter .....147
Fewer moving parts in the ultrasonic typewriter .....99
Generator monitors cleaning power .....247
High frequency piezoceramics .....247
High power company .....198
High pressure ultrasonic homogenizers ...244
High resolution frequency source .....246
High temperature level control .....245
Industrial ultrasound transducers .....52
Jig operates in two dimensions .....7
Lead metaniobate transducer crystals ....196
Leak detection .....196
Low-noise ultrasonic welding machines ..243
Measuring distances and levels .....152
Medical ultrasound transducer .....6
Modelling tissue electronically .....199
Modular system for automated control of ultrasonic flaw detection .....151
No controls for thickness gauge .....54
On-mill weld scanner .....4
Piezoelectric ceramics .....197
Plastics welding at 40 kHz .....149
Portable crack and leak detector .....101
Portable ultrasonic thickness gauge for plastic materials .....101
Pvdf hydrophones .....196
Range of battery chargers .....244
Range of thickness gauges launched .....148
Scaring rats .....4
Single channel ae system .....198
Solvent de-watering and drying equipment 55
Specialized cleaning systems .....246
Testing fibre composites without damage 147
Testing ultrasonic plastics assembly equipment .....99
Thickness gauge and flaw detector .....148
Transducer test instrument .....55
Two channel ultrasonic flowmeter .....247
Ultrasonic cleaner with separate generator ..3
Ultrasonic cleaning units .....99
Ultrasonic flaw detector .....53,150
Ultrasonic dental scraper .....243
Ultrasonic level and flow meter .....150
Ultrasonic ndt modules .....52
Ultrasonic plastics welding system .....5
Ultrasonic pulse generator/receiver .....3
Ultrasonic pulser/receiver .....152
Ultrasonic sewing machine .....5
Ultrasonic stress analyser .....5
Ultrasonic trnasducer analyser .....197
Underwater thickness gauge with remote readout .....54

## Research notes

A device for the display and adjustment of the non-linear gain curve of ultrasonic A-mode equipment, S.J.H. van Kervel, J.M. van der Wiel, J.M. Thijssen .....40
Amplitude gain in fourth-order Fourier horns, C.W. Draper and G.M. Rosenblatt .....42
FET pulse generator for ultrasonic pulse-echo applications, P. Mattila and M. Luukkala .....235

## Letter to the editor

Ultrasonic attenuation in fresh human tissues, J.C. Bamber .....187

## Conference reports

Elastic waves and microstructure, Oxford University, UK, (16-17 December, 1980) ..141
First spring school on acousto-optics and its applications, Gdansk — Wiezyca, Poland, (26-30 May 1980) .....44
International symposium on ultrasound interaction in biology and medicine, Reinhardsbrunn, GDR, (10-14 November, 1980) .....139
99th meeting of the Acoustical Society of America, Atlanta, Georgia, USA (21-25 April 1980) .....45
Tenth international symposium on acoustical imaging, Cannes, France (12-16 October 1980) .....94
Twentieth international conference on acoustics — ultrasound, Prague, Czechoslovakia, (6-10 July 1981) .....285
Ultrasonic transducers for sonar applications, Birmingham, UK, (16-17 December, 1980) .....140

## Book reviews

Acoustical imaging, Vol 8, Edited by A.F. Metherell .....46
Diagnostic ultrasound — physical principles and exercises, Frederick W. Kremkau ..92
Physical acoustics, Vol. 14, Edited by W.P. Mason, R.N. Thurston .....91
Seismic migration, A.J. Berkhout .....190
The excitation and propagation of elastic waves, J.A. Hudson .....238
Ultrasonics, J.P. Woodcock .....142

## Research and development

High temperatures measured by ultrasound .....195
Physical ultrasonics for materials evaluation 51
The AIUM and standards .....51
Ultrasound helps the blind .....147

*Ultrasonics* is published every two months by the Journals Division of Butterworth Scientific Limited, PO Box 63, Westbury House, Bury Street, Guildford, Surrey, GU2 5BH, UK. Telephone 0483-31261. Telex: 859556 SCITEC G
